Summary

- 10+ years of university teaching, including computing courses enrolling 250–400 students *2015-Present*
- 17 years experience in research *2009-Present*
- Mentored 125+ graduate and undergraduate researchers, including M.S. and honors thesis students *2019-Present*
- Co-lead, AI Faculty Learning Community, Penn State College of Engineering *2025-Present*
- Won William C. Carter Award for PhD dissertation *2013*

Research Interests

Computer Science Education, AI-Driven Adaptive Learning, Pedagogical Modeling, Trustworthy Large Language Models, Human-Centered AI

Education

PhD in Computer Science *March 2013*
Universite Pierre et Marie Curie/INRIA, Paris, France

M.S. in Computer Science and Engineering *February 2010*
Hanyang University, Ansan, South Korea

B.S. in Computer Science and Engineering *October 2006*
Premier University, Chittagong, Bangladesh

Appointments

Pennsylvania State University, University Park, USA *July 2026 - Present*
Associate Teaching Professor

Pennsylvania State University, University Park, USA *January 2022 - June 2026*
Assistant Teaching Professor

Pennsylvania State University, Altoona, USA *August 2018 - June 2021*
Assistant Professor

Illinois State University, Normal, USA *August 2017 - July 2018*
Assistant Professor

Illinois Institute of Technology, Chicago, USA *August 2016 - July 2017*
Senior Lecturer

Pennsylvania State University, University Park, USA *July 2014 - May 2016*
Postdoctoral Research Fellow

Harvard University, Cambridge, USA *May 2013 – June 2014*
Postdoctoral Research Fellow

Microsoft Research Ltd, Cambridge, UK *June 2012 – September 2012*
Research Intern

Honors and Awards (selected)

Competitive Honors, Recognitions, and Fellowships

Invitation-Only Selection, EMxAI Summit (Top 15 of 52 Applicants), University of Dayton, *EMxAI: Where Entrepreneurial Mindset Meets Artificial Intelligence*, February 2026

TLT Symposium Featured Presentation, "Next-Gen Education: Leveraging AI for Microlearning", selected as a featured session at the TLT Symposium, 2025

Best Poster Award, "CS-Mixer: A Cross-Scale Vision MLP Model with Spatial-Channel Mixing," MC REU Symposium, Pennsylvania State University, 2023 (with J. Cui, D. A. Araujo, S. Saha, M. F. Kabir)

William C. Carter Award, 2013, for significant contributions to dependable computing through doctoral dissertation research. [Award details]

Best Paper Award, " Finding resource-release omission faults in Linux" PLOS '11: Proceedings of the 6th Workshop on Programming Languages and Operating Systems, Cascais, Portugal, 2011 (with J. Lawall, G. Muller)

Best Student Presentation Award, Danish Static Analysis Symposium (DANSAS), Odense, Denmark, 2011 (sponsored by Google)

Hanyang International Scholarship Program (HISP), Hanyang University, South Korea, 2008–2010

University Merit Scholarships, Premier University, Bangladesh, 2003–2005

Grants

External Grant Secured as PI/Co-PI:

1. **Suman Saha** (Principal Investigator), Stephanie Cutler (Co-Principal Investigator), Ibukun Osunbunmi (Co-Principal Investigator), PFE: Research Initiation in Engineering Formation (PFE: RIEF), 80% credit, "Research Initiation: Scaffolding Responsible AI Use through Conversational Microlearning for the Professional Formation of Engineers," National Science Foundation (NSF). Amount: $199,009.00, September 2026 - August 2028.

2. **Suman Saha** (Principal Investigator), KEEN-town Action Grant Program, 100% credit, "From Prototype to Practice: Making ALAASKA-3C Portable for the KEEN Community.", The Kern Family Foundation. Amount: $1000.00, August 2026 - June 2027.

3. Stephen L. Dillen (Principal Investigator), **Suman Saha** (Co-Principal Investigator), Bryan Schlake (Co-Principal Investigator), Contract, 40% credit, "Wireless communication equipment for practical student use in rail technology," Ondas Networks, Corporations. Amount: $15,000.00, March 1, 2020 - June 30, 2025.

Internal Grants Secured as PI/Co-PI:

1. **Suman Saha** (Principal Investigator), Mahfuza Farooque (Co-Principal Investigator), Vani Guha (Rising Researcher), ICDS Rising Researcher Collaborations Program, "Composite Pedagogical Digital Twins: Modeling and Synthesizing Instructional Strategies from Educational Data," Institute for Computational and Data Sciences (ICDS), Penn State, Award #ICDS_RR26_030117. Selected as one of 17 funded projects from 123 faculty project proposals. Funding provides graduate stipend and tuition support for the Rising Researcher for Spring 2027.

2. **Suman Saha** (Principal Investigator), Mahfuza Farooque, Krishna Kambhampaty, Xianfang Tan, and Griselda Conejo Lopez, Large Course Transformation Grant, 80% credit, "Making Data-Structure Reasoning Visible: AI-Guided Assignment Transformation for CMPSC 132 Across Penn State Campuses," AI Center of Excellence for Teaching and Learning, Penn State. Amount: $37,944.00, July 2026–June 2027.

3. **Suman Saha** (Principal Investigator), AI in Instruction Microgrant Program, 100% credit, "Building an AI-Guided Interface for Authentic Take-Home Assignments in Computing Education," AI Center of Excellence for Teaching and Learning, Penn State. Amount: $1,000.00, July 2026–June 2027.

4. **Suman Saha** (Principal Investigator), Mahfuza Farooque (Co-Principal Investigator), Seed Grant, 50% credit, "Interpretable and Verifiable AI for Structured Decision Making," Pennsylvania Space Grant Consortium (PSGC). Amount: $7,500.00, December 2025–April 2026.

5. Mahfuza Farooque (Principal Investigator), **Suman Saha** (Co-Principal Investigator), Professional Development Grant, 50% credit, "Innovating Instructional Strategies with Personalized Microlearning," Office of the President, Penn State. Amount: $22,840.00, July 2025–June 2026.

6. **Suman Saha** (Principal Investigator), Mahfuza Farooque (Co-Principal Investigator), and Kyusun Choi, Grants for Entrepreneurial Mindset for Student Success (GEMSS), 72% credit, "LogicForge: Adaptive Microlearning for Discrete Mathematics Proficiency," Leonhard Center, Penn State. Amount: $19,093.00, January 2025–December 2025.

7. Mahfuza Farooque (Principal Investigator), **Suman Saha** (Co-Principal Investigator), Professional Development Grant, 50% credit, "Enhancing Student Engagement in a Large-Scale Computer Science Course through Interactive Bite-Size Video Learning Resources," Office of the President, Penn State. Amount: $9,820.00, January 2025–May 2025.

8. **Suman Saha** (Principal Investigator), Mahfuza Farooque (Co-Principal Investigator), Grant, 70% credit, "Next-Gen Education: Leveraging AI for Microlearning," Leonhard Center, Penn State. Amount: $9,925.00, July 2024–May 2025.

Competitively Selected Sponsored Research and Researcher Support:

1. **Suman Saha** (Faculty Project Lead), "LLM-Assisted Secure Code Generation with Automated Feedback," Penn State Intern PipelinE LInks to Navy Engineering (PIPELINE), an Office of Naval Research-supported Penn State program. Competitively selected project support for an 11-week undergraduate research internship, Summer 2026.

2. **Suman Saha** (Faculty Project Lead), "De-Obfuscation Mastery with LLMs," Penn State Intern PipelinE LInks to Navy Engineering (PIPELINE), an Office of Naval Research-supported Penn State program. Competitively selected project support for undergraduate research, Summer 2025 and the 2025–2026 academic year.

Research Supervision and Mentoring

Graduate Thesis Advising and Examination

1. **M.S. Thesis Advisor:** Sinjoy Saha, Penn State, 2025–2026.
   Learning from Verifiable and Non-Verifiable Rewards: Reinforcement Learning for LLM-generated Structured Knowledge Synthesis.
2. **M.S. Thesis Advisor:** Fatemeh Rahbari, Penn State, 2025–2026.
   AI-Powered Driver Drowsiness Detection from EEG Signal Artifacts with Explainable Predictions.
3. **M.S. Thesis Committee Member:** Kushagra Srivastva, Penn State, 2025–2026.
   Context-Aware Heuristic Selection in CDCL SAT Solvers Using Online Reinforcement Learning.
4. **Ph.D. Thesis Evaluator:** Shubhamangala B R, Visvesvaraya Technological University, India, 2013.
   Multilayer Security Requirements Elicitation Approach to Improve the Quality of Application Security.

Undergraduate Honors Thesis Advising
Advisor to *13 undergraduate honors thesis students* at Penn State. Selected theses:

Wyatt Peter Petula. *Learning Programming Through Adaptive Micro-Programming Tasks in Game-Based Environments.* Fall 2026–Spring 2027.

Akshita Ananda Subramanian. *Context Sufficiency in Large Language Models: An Empirical Study of Input Redundancy and Compression Trade-offs.* Fall 2026–Spring 2027.

Keshav Khandelwal. *Securing Tool-Using LLM Agents with a Domain-Specific Language for Safe Action and Argument Binding.* Summer–Fall 2026.

Selected Mentoring Outcomes

Student group	Mentees	Peer-reviewed publications	Presentations and other outcomes
Graduate 2023–present	18	12	9 institutional poster/talk presentations.
Undergraduate 2019–present	**108** (unique)	15	8 national/state-level poster presentations; 22 institutional poster/talk presentations; 6 student research grants; 1 student research award.

Note: Undergraduate mentees are counted once across mentoring categories. Outcomes may overlap between graduate and undergraduate groups.

Service at Penn State

Member, Graduate Operations and MS/MEng Admissions Subcommittees *2025 - Present*

Co-lead Artificial Intelligence Faculty Learning Community, College of Engineering *2025 - Present*

Advise 250+ undergraduates through the Engineering Advising Center and CSE Department *2023 - 2025*

Member, Undergraduate Committee and Award Committee *2023 - 2025*

Involved in developing curriculum for CMPSC 007N *2024*

Advisor, NDL, Penn State's largest data science student organization, sharing data science knowledge, tools, and resources. *2024–present*

Advisor, Coder's Guild, fostering programming skills through collaborative, hands-on student projects. *2024–2025*

Co-Advisor, Bangladesh Student Association (BSA), Penn State, supporting the Bangladeshi community and promoting cultural exchange and understanding. *2018–present*

Professional Activities (selected)

Conference Leadership and Scholarly Engagement

- Senior Co-Chair, Evaluation, ACM Technical Symposium on Computer Science Education (SIGCSE), 2028
- Workshop Organizer, "Evidence Before Action: A Trace-to-Action Design Studio for AI-Guided Learning," 17th International Conference on Learning Analytics and Knowledge (LAK27), Recife, Brazil, March 2027. (Accepted)
- Junior Co-Chair, Evaluation, ACM Technical Symposium on Computer Science Education (SIGCSE), Sacramento, CA, February, 2027
- Workshop Organizer, "From Assumptions to Value: Designing AI-Scaffolded Engineering Challenges for Entrepreneurial Mindset," KEEN (Kern Entrepreneurial Engineering Network) National Conference, Oklahoma City, OK, January 2027. (Accepted)
- Session Chair, IEEE Frontiers in Education (FIE) Conference, Paphos, Cyprus, October 2026.
- Panelist, "Integrating AI into teaching and learning while maintaining a focus on student agency, ethical responsibility, human-centeredness, and lifelong learning," Artificial Intelligence for Teaching Excellence and Lifelong Learning (AI-TELL) Academy, Leonhard Center, Penn State, June, 2026
- International Advisory Committee Member, The 1st International COnference on Next-Generation Electrical & Electronics Computer Systems and Technologies (iCONEECT), Bangladesh, 2026
- Panelist, "Experiences of Emerging Engineering Education Researchers Studying Entrepreneurial Mindset," American Society for Engineering Education (ASEE) Annual Conference, Charlotte, NC, June, 2026
- Workshop Organizer, "Designing and Deploying AI-Guided Assignments for Reflective Problem Solving with ALAASKA," IEEE International Conference on Emerging Technologies for STEM Education (ISEC), Princeton University, NJ, March, 2026

External Assessment & Advisory Roles

- Member, Teaching-Track Faculty Task Force, ACM SIGCSE, 2026–2027. Developing recommendations for the SIGCSE Board on programs, member benefits, and engagement opportunities for teaching-track faculty.
- Virtual Fellow in Assessment, AP Computer Science A, College Board, 2026. Reviewed exam rigor, coverage, skills, and alignment with comparable university computer science coursework.

Grant Proposal Reviewer

- AI Center of Excellence for Teaching and Learning, Penn State University, 2026. Invited as a prior awardee to review proposals for the Program/Large Course Transformation Grant and AI in Instruction Microgrant programs using structured evaluation rubrics.

Conference and Journal Reviewing

- Journal of Further and Higher Education (2026)
- SIGCSE Virtual (Poster), The 2nd ACM Virtual Global Computing Education Conference, (2026)
- The 23rd Pacific Rim International Conference on Artificial Intelligence (PRECAI), (2026)
- The 25th International Conference on Machine Learning and Applications (ICMLA), (2026)
- The 2nd International Conference on Software Engineering of Emerging Technologies (SEET), 2026
- ASEE's Computers in Education (CoED), FIE Special Issue (2026)
- American Society for Engineering Education (ASEE) Annual Conference, (2027, 2026, 2025)
- ACM Technical Symposium on Computer Science Education (SIGCSE), (2027, 2026, 2025)
- Frontiers in Education (FIE) Conference, (2026, 2025)
- The National Conference on Undergraduate Research (NCUR), (2026, 2027)
- IEEE Transactions on Artificial Intelligence, (2025)
- IEEE Communications Magazine, (2024, 2020)
- International Conference on Software Security and Assurance, (2020)

Research Features and Interviews

- "Prix William C. Carter attribué à Suman Saha" ["William C. Carter Award Presented to Suman Saha"], LIP6, June 5, 2013. Interview conducted by Inria on the William C. Carter Award and doctoral research in dependable computing. (in French)

Professional Development & Continuing Education

Attend Engineering Unleashed Faculty Development (EUFD) National Workshops on "Teach, Deconstruct, Integrate: 7 Pedagogies for Engineering Tools (TDI)", Indianapolis, IN, 2026 from the KEEN (Kern Entrepreneurial Engineering Network).

Attend Engineering Unleashed Faculty Development (EUFD) National Workshops on "EM Engineering Education Research and Scholarship", Milwaukee, WI, 2025 from the KEEN (Kern Entrepreneurial Engineering Network).

Evidence-Based Teaching Academy (EBTA) Workshop in the Eberly College of Science (ECoS), Penn State, 2025

Journal and Conferences' Publications

29. Suryansh Singh Sijwali, Medhansh Kumar Singla and **Suman Saha** "Continuous Retrieval-Grounded Reward Design for Secure Code Generation on Small Language Models (CARGO)." in the 38th IEEE International Conference on Tools with Artificial Intelligence (ICTAI), November 2026, Boca Raton, Florida.

28. Ronny Bazan-Antequera, Pattarapong Ramungthong, and **Suman Saha** "MCP-Based LLM Agents for Autonomous Active Directory Penetration Testing," IEEE International Conference on Intelligent Systems and Interdisciplinary Applications (ISAIA), October 2026, Montclair, NJ. (Accepted)
27. Vincent Fakiyesi, Srujan R Singareddy, Mahfuza Farooque, and **Suman Saha** "Examining Feedback Generation in Adaptive Conversational Learning Systems," Frontiers in Education (FIE) Conference, October 2026, Paphos, Cyprus. (Accepted)
26. **Suman Saha**, Onil Morshed, Vincent Fakiyesi, and Mahfuza Farooque "A Design Reference for Using Generative AI to Support Adaptive Learning in Engineering Education." Frontiers in Education (FIE) Conference, October 2026, Paphos, Cyprus. (Accepted)
25. Hayden Moore, **Suman Saha**, and Mahfuza Farooque "A Pilot Benchmark for NL-to-FOL Translation in Planetary Exploration." in the 1st Workshop on Perceptual Challenges for Planetary Exploration, IEEE International Conference on Robotics and Automation (ICRA), June 2026, Vienna, Austria.
24. Suryansh Singh Sijwali and **Suman Saha** "Partial-Credit RL for Reliable Code Generation with Small Language Models (WIP)." in the ACM SIGPLAN/SIGBED Conference on Language, Compilers, Tools and Theory for Embedded Systems (LCTES), June 2026, Boulder, Colorado.
23. Sinjoy Saha, **Suman Saha**, Mahfuza Farooque, and Wenpeng Yin "Reference-Free Schema Generation for Literature Review Tables via Multi-Faceted Rewards." ACL Student Research Workshop, July 2026, San Diego, CA.
22. Vincent Fakiyesi, Onil Morshed, and **Suman Saha** "A Scoping Review of Adaptive Learning Systems in Engineering Education." 2026 American Society for Engineering Education (ASEE) Annual Conference & Exposition, June 2026, Charlotte, NC.
21. Nikhil Khattar, Veer Amish Shah, Sinjoy Saha, **Suman Saha**, and Mahfuza Farooque "Designing Guided AI Systems to Foster Problem-Solving and Reflection in Computing Education." 2026 American Society for Engineering Education (ASEE) Annual Conference & Exposition, June 2026, Charlotte, NC.
20. Onil Morshed, Vincent Fakiyesi, and **Suman Saha** "Personalization Strategies in Large Language Model-Based Educational Systems: A Scoping Review." 2026 American Society for Engineering Education (ASEE) Annual Conference & Exposition, June 2026, Charlotte, NC.
19. Saiyada Uroosha Shahnawaz, Mahfuza Farooque, and **Suman Saha** "Query-Driven AI-Generated Microlearning Videos in STEM Courses." IEEE International Conference on Emerging Technologies for STEM Education (ISEC), March 2026, Princeton University, NJ.
18. Wyatt Petula, Anushcka Joshi, Peggy Tu, Amrutha Somasundar, and **Suman Saha** "DeliverC: Teaching Pointers through GenAI-Powered Game-Based Learning." 57th ACM Technical Symposium on Computer Science Education, 2026 (SIGCSE), February 2026, St. Louis, Missouri.
17. Parth Agarwal, Sangaa Chatterjee, Md Faisal Kabir, and **Suman Saha** "Explainable Gait Abnormality Detection Using Dual-Dataset CNN-LSTM Models." 24th International Conference on Machine Learning and Application (ICMLA), December 2025, Florida, USA.
16. **Suman Saha** and Mahfuza Farooque "Enhancing Student Engagement Through Example-Based Short Videos." 2025 Frontiers in Education (FIE) Conference, November 2025, Nashville, Tennessee, USA.
15. Farhan Sadique, **Suman Saha**, Mahfuza Farooque, and Susan Yelich Biniecki "Bridging the Gap: Faculty Perspectives on Microlearning Implementation in Engineering and Computing Education." 2025 Frontiers in Education (FIE) Conference, November 2025, Nashville, Tennessee, USA.
14. Suryansh Singh Sijwali, Angela Marie Colom, Anbi Guo, and **Suman Saha** "Fixing Performance Bugs Through LLM Explanations." The 7th IEEE International Conference on Artificial Intelligence Testing (AITEST), July 2025, Tucson, Arizona, USA.
13. Dennis Miczek, Divyesh Gabbireddy, and **Suman Saha** "Leveraging LLM to Strengthen ML-Based Cross-Site Scripting." Wireless Security and Machine Learning (WiseML), June 2025, Arlington, Virginia, USA.
12. Sri Krishna Chaitanya Velamakanni and **Suman Saha** "Snackable Study: Boosting Micro-learning with Bite-Size Videos." 2025 American Society for Engineering Education (ASEE) Annual Conference & Exposition, June 2025, Montreal, Quebec, Canada.
11. **Suman Saha**, Fatemeh Rahbari, Farhan Sadique, Mahfuza Farooque, and William Joseph Rothwell "Next-Gen Education: Enhancing AI for Microlearning." 2025 American Society for Engineering Education (ASEE) Annual Conference & Exposition, June 2025, Montreal, Quebec, Canada.
10. Jonathan Cui, David A. Araujo, **Suman Saha**, and Md. Faisal Kabir "CS-Mixer: A Cross-Scale Vision MLP Model with Spatial–Channel Mixing." IEEE Transactions on Artificial Intelligence (TAI), June, 2024

9. Arian Azmoudeh and **Suman Saha** “Stock Price Trend Prediction using Machine Learning and Sentiment Analysis." in International Conference on Social and Education Sciences (ICHES), June 2024, Prague, Czech Republic.
8. Mahfuza Farooque, Arya Deepak Keni Keni and **Suman Saha** “Predicting Boolean Satisfiability Using Graphical Neural Network" in International Conference on Life Sciences, Engineering, and Technology (ILSET), 2023, Denver, CO, USA.
7. Nicolas Palix, Gael Thomas, **Suman Saha**, Christophe Calves, Julia Lawall, and Gilles Muller “Faults in Linux 2.6” ACM Transactions on Computer Systems (TOCS), June 2014
6. **Suman Saha**, Jean-Pierre Lozi, Gaèl Thomas, Julia Lawall, and Gilles Muller “Hector: Detecting Resource-Release Omission Faults in Error-Handling Code for Systems Software” in the 43rd Annual IEEE/IFIP International Conference on Dependable Systems and Networks (DSN), Budapest, June 2013. *Won William C. Carter Award.*
5. **Suman Saha**, Shizhen Jin, and Kyung-Goo Doh “Detection of DOM-based Cross- Site Scripting by Analyzing Dynamically Extracted Scripts” in the 6th International Conference on Information Security and Assurance, April 2012, Shanghai, China.
4. **Suman Saha**, Julia Lawall, and Gilles Muller “Finding Resource-Release Omission Faults in Linux” SIGOPS Operating System Review (OSR), vol. 45, pp. 5-9 (2011). *Selected as the best paper from the submissions in PLOS'11 workshop.*
3. **Suman Saha**, Julia Lawall, and Gilles Muller “An Approach to Improving the Structure of Error-Handling Code in the Linux Kernel” in the ACM SIGPLAN/SIGBED Conference on Language, Compilers, Tools and Theory for Embedded Systems (LCTES), 2011, Chicago, USA.
2. Nicolas Palix, Gael Thomas, **Suman Saha**, Christophe Calves, Julia Lawall, and Gilles Muller “Faults in Linux: Ten Years Later” in the 16th International Conference on Architectural Support for Programming Languages and Operating Systems (ASPLOS), 2011, CA, USA.
1. **Suman Saha** “Consideration Points: Detecting Cross-Site Scripting” in the International Journal of Computer Science and Information Security, August 2009, Pittsburgh, USA.

Poster Presentations (selected)

12. Vai Patankar, Veer Amish Shah, Mahfuza Farooque and **Suman Saha**. “Beyond Static Slides: Automated Video Generation for Education.” Poster accepted for presentation at the SIGCSE Virtual, the 2nd ACM Virtual Global Computing Education Conference, November, 2026.
11. Daksh Mainee, Sanan Goel and **Suman Saha**. “From Programs to Subproblems: Execution-Grounded Pre-Deployment Validation.” Poster accepted for presentation at the SIGCSE Virtual, the 2nd ACM Virtual Global Computing Education Conference, November, 2026.
10. **Suman Saha** and Anushcka Joshi. “Making Student Reasoning Visible: Human–AI Complementarity in Educational Review.” Poster accepted for presentation at the Human–AI Complementarity Workshop: Dynamic Alignment, NSF AI Institute for Societal Decision Making, Carnegie Mellon University, Pittsburgh, PA, September, 2026.
9. Rong Feng and **Suman Saha** "Can LLMs Recover Program Semantics? A Systematic Evaluation with Symbolic Execution" at the National Conference on Undergraduate Research (NCUR) 2026, April 13-15, 2026, Richmond, VA.
8. Aditya Raj, Raj Saketh Mamidala, and **Suman Saha** "A Self-Improving Feedback System for Safer and More Reliable AI-Generated Code" at the National Conference on Undergraduate Research (NCUR) 2026, April 13-15, 2026, Richmond, VA.
7. Dev Pratap Singh, Rong Feng, and **Suman Saha** "Learning Verified Compiler Optimization Heuristics for Lazification using a Code-Centric LLM" at the National Conference on Undergraduate Research (NCUR) 2026, April 13-15, 2026, Richmond, VA.
6. Saatvik Pradhan and **Suman Saha** "A Smarter Compiler Framework Empowered by Large Language Models" at the National Conference on Undergraduate Research (NCUR) 2025, April 7-9, 2025, Pittsburgh, PA.
5. Dennis Miczek and **Suman Saha** "Advanced XSS Detection Through LLM-Driven Dataset Augmentation", at the National Conference on Undergraduate Research (NCUR) 2025, April 7-9, 2025, Pittsburgh, PA.

4. Bono Shih, Ibukun Osunbunmi, Stephanie Cutler, Ryan Solnosky, Nathan Brown, **Suman Saha**, and Mahfuza Farooque. November, 2024. “Educational Innovation with AI: Opportunities, Challenges, and Reflection.” Paper presented at Working with Artificial Intelligence: Two Years of Ethical AI for Learning, Teaching and Research (an online symposium).
3. Muntasir Masum, Cheng-Hsi Yang, **Suman Saha**, and Mahfuza Farooque “Predictive Modeling of Cognitive Function in Early Midlife: A Comparative Analysis of Machine Learning Techniques", A poster at the Population Association of America (PAA) 2025 Annual Meeting, Washington, DC, April 10 – 13
2. Divyesh Gabbireddy and **Suman Saha** "Detect Cross-Site Scripting (XSS) based on Text Analysis," Undergraduate Research at the Capitol – Pennsylvania, March 2024, Harrisburg, PA, USA.
1. Jonathan Cui, David A. Araujo, **Suman Saha**, and Md. Faisal Kabir “CS-Mixer: A Cross-Scale Vision MLP Model with Spatial-Channel Mixing", a poster at MC REU Symposium, Pennsylvania State University (Best Poster Award).
